CONFERENCE OBJECTIVES:

- Gain a basic understanding of the pharmacology of immunotherapy
- Discuss advancements in nutrition and cancer care delivery using expert guidelines and best practices
- Identify HER2 as a targetable biomarker in gastroesophageal adenocarcinoma (GEA) and biliary tract cancer (BTC)
- Differentiate between the safety profiles, toxicities, and efficacy profiles of first-, second-, and third-generation tyrosine kinase inhibitors (TKIs)
- Describe the mechanism of action of dual-antigen targeting constructs (e.g., BCMA, GPRC5D) in relapsed or refractory multiple myeloma

Cancellation policy: written cancellations received at least 10 days before the course date receive a full refund, minus a \$25 administrative processing fee. No partial contact hours. Attendees must complete all sessions and submit an evaluation.
